## **Stop the New AES Redondo Power Plant**

Dear Ms. Kelly,

As a 16-year resident of Redondo Beach, I request the AES power plant be denied a license for a new power plant in our city. Now that the historical reason for the location of the plant is gone (i.e., ocean water for cooling), I believe the power plant is incompatible with our city's vision for the future. It's a pollution source that impacts many due to its location upwind from the entire LA basin in the prevailing winds. It's an eyesore that stands out in the South Bay from many miles away and is incompatible with the land use in the rest of the area.

Elimination of the plant will free up the location for needed waterfront revitalization, providing an economic boost and great cosmetic improvement to the entire South Bay area, as well as the opportunity for desperately needed open space in a densely populated area, unfettered by industrial emissions and power lines. I appreciate your consideration of my concerns.

Very Respectfully,

Stephen C. Roach  
Redondo Beach Resident
