Notice of Availability City of Palo Alto Integrated Resource Plan Filing Docket No. 18-IRP-01

Senate Bill 350 (SB 350) (de León, Chapter 547, Statutes of 2015) requires publicly owned utilities (POUs) with annual electrical demand exceeding 700 gigawatt hours to adopt integrated resource plans (IRPs) by January 1, 2019. POU IRPs must be submitted to the California Energy Commission for review by April 30, 2019. POU IRPs submitted to the Energy Commission will be posted for 30 calendar days for public comment.

Upon receipt, the Energy Commission will review the IRP and determine whether it is consistent with the requirements of SB 350. The Energy Commission will consider requirements in the IRP Guidelines as well as public comment related to the IRP.

On April 30, 2019, the City of Palo Alto submitted its complete IRP filing to the Energy Commission, including the four standardized reporting tables. The standardized reporting tables provide data on capacity and energy resources each POU plans to use and the POU's projected progress towards achieving greenhouse gas emission reduction targets. The reporting tables provide supporting information for the City of Palo Alto IRP.

City of Palo Alto IRP filing is posted at: <http://www.energy.ca.gov/sb350/IRPs/pous.html>.

The IRP Guidelines can be found at:
