Update and Discussion of the CPUC’s Climate Adaptation Proceeding on Defining Vulnerable and Disadvantaged Communities. (Sarah Owens presented)
Significant conversation regarding the need to include community-based organizations in vetting climate adaptation programs/policies. But also broader discussion regarding how programs, agencies, utilities, etc. should effectively engage with CBOs and how that engagement should be reflected in the final programs, projects, studies, etc.. Engagement should be on-going and iterative. Resources, funding, or compensation for CBOs would allow for greater CBO participation. Accordingly, community and CBO engagement should be a robust component of the conversation during the CPUC’s second working group meeting for the Vulnerable and Disadvantaged Communities Topic on May 21, 2019. Additional note about incorporation of tribal involvement.

Presentation: SoCal Gas San Joaquin Valley Pilots (Grant Wooden)
Request made to agendize Biomethane Pilot Proceeding for the next meeting to discuss evaluation process for pilots to assess local impacts including herd size changes and flaring impacts

Presentation: Energy Commission’s School Bus Replacement Program (Tomas Ortiz)

Presentation: CPUC’s School Bus Electrification Efforts (Michael Truax)

Appointment of Officers

AB 617

**Administrative matters / Member and Staff Updates**

CPUC / CEC staff looking into staggering terms for DCAG members. Can discuss next time. Would need to amend the charter. Galen Lemei (Energy Commission attorney liaison to the DACAG) et al could bring suggested language to the next meeting, review and recommend to the two commissions to adopt.

Joseph Williams got a job with SCE and resigned from the DACAG. Will need to fill his seat.

Is there any room to discuss the compensation question, if we are revising the charter?
