AES Power Plant in Redondo Beach

Patricia,

I just wanted to take a few minutes to let you know our family and myself oppose a new plant in Redondo beach. We have been following the debate for years and have been informed by both sides. We have owned our house for ten years now and love our area but wish the power plant would go away. We have many friends on both sides of the debate, each believe their points are stronger than the other. One of my main contentions is how many new power plants coming on line and the ability of conservation which is becoming a more widely excepted practice. We understand there are two sides of every story but we have settled on doing without. We understand you will have many emails and hope that you get through all of them.

Thanks for your understanding and hard work.

The Libiano Family

Mark, Kayo and 16 month old Rylen, and hoping for another soon.
