No New Power Plant in Redondo

As a resident of Redondo Beach I oppose any new building permit that would allow a new power plant to be built in this city. I have the old one causing all kinds of noise in the middle of the night and being a horrible eye sore without getting any real benefit from it. As a mother of 2 small children who had to comfort them through the years each time the power plant released its steam & made those horridly scary noises in the middle of the night, I can't imagine having a new one built here. Instead we should use that space for more parks & other recreational activities for our community's children & invest in renewable energy that does make a difference without harming our future. I oppose the new power plant.
