AES Power Plant in Redondo Beach

Dear Commissioner,

As a resident of Redondo Beach, I would like to formally advocate for the modernization of the AES power plant. I have seen images of the proposed plant and believe it would be a significant improvement to our waterfront, not to mention a benefit to our state's energy supply. I am aware of our state's shortfall in electricity supply and believe having an electrical generating facility in our backyard in Redondo Beach is a good thing.

Please approve the AES application as soon as possible because a limited supply of electricity can only hinder our city, region and state.

Thank you,
Robert Boren
Redondo Beach, CA
