AES Redondo Beach Application

Dear California Energy Commission:

I have lived and practiced law in Redondo for over 50 years. I am a former member of the Redondo Beach City Council and former City Attorney of Hermosa Beach. I wholeheartedly support the AES application and their plans to tear down the existing power plant in Redondo Beach and replace it with a new, smaller cleaner modern power plant.

I followed closely the debate over Measure A. Comments coming from opponents claiming that Measure A was not about the power plant but about zoning are simply false. I and many others with whom I have spoken were against Measure A because we believe the plant (and the connecting power line rights of way) are a vital part of our infrastructure, assisting in providing the stability necessary for our economic future.

Please approve AES's application as quickly as possible.

Thank you,

JB Mirassou

Redondo Beach, CA
