AES Redondo Power Plant

Dear Patricia,

I am writing you in regards to the proposed power plant in Redondo Beach. I have lived in the south bay for 12 years and currently reside in Hermosa Beach. It was always my understanding that once the current power plant would be retired by 2020. A new power plant would have several detrimental impacts to our community. With the proposed new plant being closer to the ground and run at a higher capacity, the air quality would be affected greatly and would affect the health of the surrounding residents. This is not just a Redondo Beach issue, but also affects Hermosa Beach where I live. We have many parks, homes, a greenbelt, and a community garden that would be affected.

With that, I ask that you reject the proposal for the new power plant.

Thank you,

Simone Binder
