Do NOT approve the new power plant

I live right next door to the plant. I see it out my bedroom window everyday. I have asthma. This community DOES NOT need a new plant. It has been proven that this plant does not provide enough power to make it worthwhile. If this power plant gets approved I promise to move out of the South Bay. My asthma will not allow my husband and I to stay here. I should also mention that I am self employed and my husband is engineer. We frequent bars, restaurants, and shops in the South Bay for years. If we are FORCED TO MOVE because of that power plant and how it affects my health, we will NOT be coming back.

Which brings another point. Why should I be forced out of the apartment that I love? Because that will happen if this new power plant is approved. Most people dont want the thing. Its a blight on the community and the health of people in the area. WITH LITTLE TO NO GAIN.
