| **DOCKETED** |
|-----------------|----------------|
| **Docket Number:** | 17-EVI-01 |
| **Project Title:** | Block Grant for Electric Vehicle Charger Incentive Projects |
| **TN #:** | 229463 |
| **Document Title:** | 2020 CALeVIP Projects Workshop Presentation |
| **Description:** | N/A |
| **Filer:** | Jessica Martinez |
| **Organization:** | California Energy Commission |
| **Submitter Role:** | Commission Staff |
| **Submission Date:** | 8/16/2019 8:48:36 AM |
| **Docketed Date:** | 8/16/2019 |
Agenda

• Welcome
• CALeVIP Background
• 2020 Projects
  • Eligibility and Requirements
  • Application Process
• Eligible Equipment
• Questions and Comments
• Adjourn
Clean Transportation Program

• AB 8 (Perea, Chapter 401, Statutes of 2013) extends ARFVTP through January 1, 2024.

• Receives up to $100 million per year to:
  • Transform California's transportation market into a diverse collection of alternative fuels and technologies and reduce California's dependence on petroleum.
  • Develop and deploy innovative technologies that transform California’s fuel and vehicle types to help attain the state’s climate change policies.
Commitment to Diversity

• The Energy Commission adopted a resolution on April 8, 2015, to firmly commit to:
  • Increase participation of women, minority, disabled veteran and LGBT business enterprises in program funding opportunities
  • Increase outreach and participation by disadvantaged communities
  • Increase diversity in participation at Energy Commission proceedings
  • Increase diversity in employment and promotional opportunities
Commitment to Diversity

**Fairness** – Increase funding accessibility to all Californians

**Inclusion** – Small businesses make up a significant portion of the U.S. economy

**Job Creation** – Projects can create jobs for residents of the under-served communities

**Diversity of Ideas** – Great ideas occur in a variety of areas

**Diversity in Communities’ Needs** – Needs vary widely from one area to the next (air quality, socioeconomic, etc.)
Goals:

- Implement targeted incentive projects throughout California that address a specific region’s EV charging needs.
- Provide a mechanism that speeds up the installation, reporting, and funding processes.
CALeVIP Background

• CALeVIP vs Incentive Projects within CALeVIP
  • CALeVIP is the platform for all Incentive Projects
  • Incentive Projects within CALeVIP are geographically targeted projects
• Total Active Projects: $51 million
  • Up to $200 million in future funding
### CALeVIP Background - Projects

<table>

</table>

Total: $73.5 million

*Includes SMUD’s $1.5 million investment that is in the process of being added.

** Includes MBCP’s $1 million investment. MBCP is investing $1M/year for 3 years.
2020 CALeVIP Projects
2020 Incentive Projects

• 3 Projects
• All include both Level 2 and DCFC as eligible
• Funding per Incentive Project will vary and include fiscal year contributions
• Requirements and eligibility may vary between Incentive Projects
2020 Incentive Projects

Peninsula-Silicon Valley Incentive Project
• Anticipated Release: May 2020

San Diego County Incentive Project
• Anticipated Release: August 2020

Sonoma Coast Incentive Project
• Anticipated Release: October 2020
2020 Incentive Project
Pending Partnerships
Peninsula-Silicon Valley Incentive Project
- Peninsula Clean Energy (PCE)
- Silicon Valley Clean Energy (SVCE)
- San Jose Clean Energy (SJCE)
- Silicon Valley Power (SVP)
- City of Palo Alto Utilities (CPAU)

San Diego County Incentive Project
- San Diego Association of Governments
- San Diego Air Pollution Control District

Sonoma Coast Incentive Project
- Sonoma Clean Power
- Northern Sonoma County Air Pollution Control District

All partnerships are pending Board or Council consideration and approval.
# Proposed Funding

<table>
<thead>
<tr>

</tr>
<tr>
<td>100kW+</td>
<td>Up to $70K; or 75% of the total project cost, whichever is less</td>
<td>Up to $80K; or 80% of the total project cost, whichever is less</td>
<td>No requirement to waive</td>
</tr>
</tbody>
</table>

**CalEnviroScreen 3.0 Tool** (4.0 if released)
## Proposed Level 2 Incentive Design

<table>
<thead>
<tr>
<th>Incentive Project</th>
<th>Incentive Design</th>
<th>Rebate Per Connector</th>
<th>Adders Per Connector</th>
<th>Waive right to LCFS Dispensed Fuel Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Peninsula – Silicon Valley</td>
<td></td>
<td>$5,000</td>
<td>$1,000</td>
<td>$500</td>
</tr>
<tr>
<td>San Diego</td>
<td></td>
<td>$5,000</td>
<td>$1,000</td>
<td>$500</td>
</tr>
<tr>
<td>Sonoma Coast</td>
<td></td>
<td>$1,000</td>
<td>$1,000</td>
<td>$500</td>
</tr>
</tbody>
</table>
Disadvantaged Community: CalEnviroscreen 3.0/4.0 score of 75% or higher

Low-income community: AB1550 – Census tracts at or below 80% statewide median income

Rural community (Sonoma Coast only): Unincorporated towns in Sonoma and Mendocino counties
Charger Limits per Site

<table>
<thead>
<tr>
<th>Project</th>
<th>DC Fast Chargers</th>
<th>Level 2 Connectors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Peninsula – Silicon Valley</td>
<td>1-6</td>
<td>1-20</td>
</tr>
<tr>
<td>San Diego</td>
<td>1-6</td>
<td>1-10</td>
</tr>
<tr>
<td>Sonoma Coast</td>
<td>1-4</td>
<td>1-10</td>
</tr>
</tbody>
</table>

Additional chargers may be installed, but will not be eligible for funding from CALeVIP.
County level dollar cap on Applicants’ active applications

- A cap on the dollar amount of active applications for an applicant
- Based on the county of the project site
- Once an application is completed and paid, then the applicant is eligible to apply for more funds
Pending Rebate Cap Limits

### Peninsula – Silicon Valley Incentive Project

<table>
<thead>
<tr>
<th>County</th>
<th>Funding Available</th>
<th>Active Cap Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Santa Clara</td>
<td>$36M*</td>
<td>$720K**</td>
</tr>
<tr>
<td>San Mateo</td>
<td>$24M*</td>
<td>$720K**</td>
</tr>
</tbody>
</table>

*Funding available will vary by each year based on fiscal year contributions from pending project partners.

**Active cap limits will decrease after the first year when the Energy Commission’s initial investment is exhausted.

### San Diego County Incentive Project

<table>
<thead>
<tr>
<th>County</th>
<th>Funding Available</th>
<th>Active Cap Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>San Diego</td>
<td>$17.66M*</td>
<td>$720K**</td>
</tr>
</tbody>
</table>

### Sonoma Coast Incentive Project

<table>
<thead>
<tr>
<th>County</th>
<th>Funding Available</th>
<th>Active Cap Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sonoma</td>
<td>$6M*</td>
<td>$600K**</td>
</tr>
<tr>
<td>Mendocino</td>
<td>$750K*</td>
<td>$300K**</td>
</tr>
</tbody>
</table>

*Funding available will vary by each year based on fiscal year contributions from pending project partners.

**Active cap limits will decrease after the first year when the Energy Commission’s initial investment is exhausted.
• Sonoma County has a $600K cap limit for active applications.
• Using Fauble Company as an example
  • The company files 3 applications in Sonoma County
    • 1 for $300K, 1 for $200K, and 1 for $100K for a total of $600K
    • The company must completely finish and receive the rebate for at least 1 of the projects to file additional applications in Sonoma County
      • 1 application is completed and Fauble Company receives the full reserved amount of $200K
  • Fauble Company also wants to file applications in Mendocino County
  • Fauble Company’s active applications in Sonoma County totals $400K
  • Fauble Company can apply in Mendocino County, but may only apply for up to another $200K in Sonoma County
Eligibility -
Applicants

- Private companies
  - Business owner, EVCS manufacturer, EVSP, contractors, not-for-profits, community/faith-based organizations, etc.
  - Not required to be the site owner or host

- Public agencies

- Tribal communities

- Must have a valid California Business License
Eligibility - Applicants

To be eligible to receive Community Choice Aggregation (CCA) funding, you must:

• Be a CCA customer
• Meet all CCA eligibility requirements

More details to come in project-specific webinars
Eligibility – DCFC
Site Locations

- Urban/suburban retail cores
- Retail shopping centers
- Grocery Stores
- Restaurants
- Retail Gas stations
- Hospitals
- Sheriff/police stations
- Colleges/Universities*

- Airports
- Hotels
- Casinos
- Libraries
- Public Transit Hub
- Curbside**
- Publicly available parking garages and surface lots (not workplace parking)

*Must be a CSU, UC or 2-year Community College
**Must coordinate with the city or county ahead of time
Eligibility – DCFC Site Locations

• Installation site must be inside the project’s defined region
• Charger(s) must be available to the public 24 hours a day, 365 days a year
• Be well-lit, secure and in compliance with all federal, state and municipal laws, ordinances, rules, codes, standards and regulations
Eligibility – Level 2
Site Locations

• Installation site must be inside the project’s defined region
• Must be shared use, except for San Mateo County MUDs
• Any site type is available
  • Schools
  • Hospitals
  • Public Agency sites
  • Workplaces
  • Tribal Lands
  • Etc.
## Eligibility – Level 2
### Site Locations

Single family residence and assigned parking installations are excluded (Dedicated parking is only allowed for MUDs in San Mateo County)

### Eligible Sites

<table>
<thead>
<tr>
<th>Eligible Sites</th>
<th>Counties</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Santa Clara</td>
</tr>
<tr>
<td>Commercial: Public</td>
<td>Yes</td>
</tr>
<tr>
<td>Workplace: Private/Public Shared Use</td>
<td>Yes</td>
</tr>
<tr>
<td>MUD: Private/Public Shared Use</td>
<td>Yes, and Dedicated allowed</td>
</tr>
<tr>
<td>Light-Duty Fleet: Private/Public Shared Use</td>
<td>Yes</td>
</tr>
<tr>
<td>New Construction</td>
<td>No</td>
</tr>
</tbody>
</table>

(Dedicated parking is only allowed for MUDs in San Mateo County)
Equipment Requirements - DCFC

- Must have both CHAdeMO and SAE CCS Combo connectors
- ≥ 50 kW
- Must be networked (Wi-Fi/Cellular)
  - Equipment and network must have remote diagnostics and be capable of remote start
  - Capable of usage data collection
  - Minimum 5 year networking agreement, eligible towards total project cost
• Must accept multiple forms of payment (NFC, App, toll-free phone, etc.)

• Publicly available DCFCs that charge a fee and are installed/open for public use on or after January 1, 2022 will be required by law to have a credit card EMV reader on the charger or on a kiosk servicing the charger.

• Must be certified under the Nationally Recognized Testing Laboratory Program (NRTL)

• Must be able to revert to an open communication protocol standard
Equipment Requirements – Level 2

- Must have the J1772 connector
- ≥ 6.2 kW capable
- Must be ENERGY STAR® Certified
- Must be networked
  - Equipment and network must have remote diagnostics and be capable of remote start
  - Capable of session usage data collection
  - Minimum 2 year networking agreement, eligible towards total project cost
• If payment is required, must accept some form of credit cards and multiple forms of payment.
  • Publicly available Level 2 chargers that charge a fee and are installed/open for public use on or after January 1, 2023 will be required by law to have a credit card EMV reader on the charger or on a kiosk servicing the charger(s).

• Must be certified under the Nationally Recognized Testing Laboratory Program (NRTL)

• Must be able to revert to an open communication protocol standard
Eligible Costs

- Equipment: EVSE, transformers, panels, advanced energy storage
- Planning/design
- Installation costs (labor & materials)
- Utility service orders
- Demand management equipment
- Networking agreements
- Extended warranties
- Stub-outs
- Signage
Ineligible Costs

• Permit Fees
• Solar panels
• Costs paid by other rebate or incentive programs/projects
• DCFC or Combo installations must be completed within 15 months

• Level 2 installations must be completed within 9 months
• Each application must be completed before the deadline, which starts when the application funds are reserved.

  • Applicants should not apply until they have an executed site host agreement and completed Site Verification Form
  • Planning costs incurred prior to funding being reserved are eligible costs (Once landing page is live)
  • Communicate with the necessary utility provider from the beginning
  • Station must be 100% operational and open for use by the application deadline
  • All application documents must be submitted and approved by the application deadline
  • Reach out to CSE staff if delays arise
DCFC or Combination Rebate Process

STEP 1
Select equipment, provide owner authorization & apply online.

STEP 2
CSE reviews application to confirm eligibility.

STEP 3
Rebate funds reserved. You have 15 months to complete your project.

STEP 4
Upload documents online for CSE review.

STEP 5
Design & permitting done – receive up to 60% of rebate.

STEP 6
Project completed – receive remaining payment.
Level 2 Rebate Process

STEP 1
Select equipment, provide owner authorization & apply online.

STEP 2
CSE reviews application to confirm eligibility.

STEP 3
Rebate funds reserved. You have 9 months to complete your project.

STEP 4
Upload documents online for CSE review.

STEP 5
Project completed – receive remaining payment.
Key Project Features

Applicant Dashboard
• Create an account
• Apply and view all applications
• Upload required documents online

Transaction & Reminder Emails
• Applicants notified of any application status change

Dedicated Hotline
• Project staff available to answer project questions on eligibility, required documentation and more
Equipment Manufacturers
• Create an account as an equipment manufacturer
• CSE reviews registration and validates equipment manufacturer status
• Dashboard now allows you to upload and view your equipment

Submit equipment for CALeVIP projects
• Use online equipment upload form to submit equipment
  • Include specifications, cut sheets, sales contact information, and photos to be used / referenced on the site
Key Takeaways

To be eligible, equipment and services must be purchased after Funds Reserved

• Planning costs such as Design/Engineering drawings and utility service orders may be incurred prior to application, after the incentive project’s landing page is live.

• Planning costs are incurred at the applicant’s own risk. If incentive funds are not available, planning costs will not be reimbursed.

• If an application is deemed ineligible and planning costs were previously incurred, costs will not be reimbursed.
Key Takeaways

• EVSPs, contractors and others are eligible to apply with site owner permission

• Applications are limited by rebate caps based on county

• DCFC or Combo rebate funds may be received in milestone payments

• Level 2 rebate funds are received in 1 payment after installation and final documents are received

</tr>
</tbody>
</table>

*Funding available will vary by each year based on fiscal year contributions from pending project partners. **Active cap limits will decrease after the first year when the Energy Commission’s initial investment is exhausted.
Are there different strategies that should be considered for the rebate cap limits?

Should there be a different cap type for Level 2 charger applications compared to DC fast chargers?
What are potential critical points during the charger installation process that could require mandatory deadlines?

What should those deadlines be?

Are the critical points the same for Level 2 and DC fast charger installations?
