Redondo Beach Power Plant

To whom it may concern,

My family lives in RB and I have been against the resurrection of the Power Plant in Redondo Beach because of various reasons . Besides the point that we actually do not need the power, the power generated does not help RB but increases our burden in various ways of pollution, noise, view and other, I just think that 50 years ago there was a reason a contract was signed for certain time period and this time is now over.

The landscape has changed and now not just RB but probable 1 million people in the southbay will be effected many of those have no voice because not living in RB.

Therefore I am asking you to consider to shut the plant.

Sincerely

Mansour Khatib
