Support of AES Redondo Beach

California Energy Commission,

As a 39 year resident of Redondo Beach, I look forward to the smaller, safer power plant that AES is planning in Redondo.

I believe their proposal benefits both the citizens of Redondo Beach as well as the citizens of California. As we know, the population of California has power needs which exceed the current capacity.

I hope that the California Energy Commission will work in conjunction with AES to assure the easiest transition to the smaller plant. California needs a spirit of cooperation from you and from AES.

Thank you in advance for your final approval of the revitalized power plant in Redondo Beach.

Christine Reilly
