## **AES Redondo**

Patricia,

Thanks for your good work on our behalf.

I understand you have been getting a flurry of letters from AES employees and their friends, posing as concerned Redondo citizens. I have lived in Redondo Beach for 10 years and I'm active in the community. I assure you that a large majority of the people here are vehemently opposed to the building of a new power plant along our shoreline. Some people feel this way less passionately and some aren't particularly informed about the situation. But absolutely no one I've spoken with (50-75 neighbors and friends over the past several months) favor the building of a new plant. Only AES and those who benefit from their profit want us to continue the coastal blight and pollution caused by such a power plant.

Please, please vote to stop the building of a new plant in Redondo Beach. Thank you!

John
