Robert B. Weisenmiller, Chair  
California Energy Commission  
1516 Ninth Street  
Sacramento, CA 95814

Dear Chairman Weisenmiller:

I am writing to urge the California Energy Commission to perform a needs analysis in conjunction with its formal review of the AES application to build a new power plant in the City of Redondo Beach.

Unless the power from the proposed facility is needed, and there are no alternatives to fulfill a determined need for the region, I would oppose the power plant at the current site. Therefore, it is imperative that the Energy Commission perform a needs analysis as part of the AES application review to determine if the energy is required for the region and state.

Thank you for your consideration of this request. If you have any questions or concerns, please do not hesitate to contact me at (310) 316-2164.

Sincerely,

A handwritten signature in black ink that reads "Al Muratsuchi".
