## **AES Power Plant, Redondo Beach**

To whom it may concern:

As concerned citizens of Redondo Beach, and home-owners in this city for over 43 years, we are opposed to any efforts by AES to rebuild and/or reformat the plant, which has been an eyesore on our waterfront for several decades. Not only has the Power Plant been an active pollutant to residents and school children of our community, but recent unbiased studies have clearly indicated that it's services are no longer needed to satisfy the energy needs of this and neighboring communities. If construction of a new power plant is absolutely necessary, we would urge AES to consider other locations in California which are unpopulated, and therefore less susceptible to the pollution generated by such a plant. Thank you for your consideration.
