Redondo Beach

Dear Ms. Kelly:

I am a lifelong resident (born and raised) of Redondo Beach. I love this city and am not opposed to new developments and generally encourage new businesses and the revitalization of this community. I was against Measure A not because I favored the power plant but because I thought that is was the wrong way (and, quite possibly, an expensive option) to rid this city of the power plant. I absolutely oppose the possibility of a new AES power plant on our waterfront. It seems that it is quite unnecessary for our city and strongly encourage you to have it dismantled.

Thank you for your consideration. There are many of us in this city that feel just as strongly. Please do not see the defeat of Measure A as a reflection that we want a power plant in this city. Many, many of us opposed that measure explicitly because we knew that it was poorly written and unenforceable and costly to our city.

Thank you, Elizabeth Marcon
