NO AES Power Plant Renewal

Dear Patricia,

I live within a mile of the current power plant and am exposed to the particulate matter, which doesn't help my asthma at all. Also, I hear the loud blasts when it needs to blow off steam and whatever else is spewing out of it. My son will be going in for cancer surgery next week due to nodules on his lungs and neither of us will be able to attend the informational meeting scheduled for October 1. We live across the street from the high school and are exposed to the particulate matter as are the students at the school and the rest of our neighbors. I have COPD and my son has cancer in his lungs. We need to shut down that plant! We tried to pass a zoning initiative to prevent AES from rebuilding, but it didn't pass because of all the money that AES was able to spend to confuse and deter voters. Please do a needs assessment to determine if this plant needs to be renewed. We already know it doesn't need to be renewed. Thank you.

Carol Peterson
