## **Opposition to New Power Plant**

My family and I are residents of Redondo Beach for several years. We join with the anti-power plant group in our concerns about building a new power plant: 1) the electrical lines create electromagnetic harm to people in the vicinity and they take up a large amount of airspace in our city, 2) the electrical lines are unsafe in earthquake or high wind or electrical fire accidents, 3) the new power plant will pollute our air quality with its air emissions 24/7, 4) the new power plant will endanger the ocean bio-system by using ocean water for cooling and 5) this power plant is not necessary for the grid in California. Thank you. Sincerely, Diane Liberman (and Roberto, Natalie and Kathleen Liberman (424) 206-1466
