

DOCKETED

Docket Number:	13-ATTCP-01
Project Title:	Acceptance and Training Certification
TN #:	230072
Document Title:	Letter to NEMIC - 2019 Update Report
Description:	A letter to NEMIC discussing the current status of its 2019 Update Report evaluation.
Filer:	Joe Loyer
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	10/9/2019 10:38:01 AM
Docketed Date:	10/9/2019

September 10, 2019

David Bennett, Administrator
National Energy Management Institute Committee
8403 Arlington Boulevard, Suite 100
Fairfax, Virginia 22031

Dear Mr. Bennett:

The California Energy Commission (CEC) is in receipt of the National Energy Management Institute Committee's (NEMIC) proposed 2019 Update Report amending its previously approved application to be a Mechanical Acceptance Test Technician (MATT) Certification Provider under California Code of Regulations, California Building Energy Efficiency Standards (Energy Standards) Title 24, Part 1, §10-103.2(d)2.

Staff has reviewed the NEMIC 2019 Update Report under §10-103(f) and determined that it is not approvable at this time because NEMIC does not have an operational database system. The NEMIC 2019 Update Report is not compliant with §10-103(c)3F (Quality Assurance and Accountability) as well as Reference Appendix NA1.9.3(b) (requiring an electronic database) of the 2019 Energy Standards.

Until such time as NEMIC can demonstrate the functionality of a compliant database system, staff cannot recommend approval of the NEMIC 2019 Update Report. Until the CEC fully approves the NEMIC 2019 Update Report, NEMIC cannot function as an ATTCP.

Sincerely,

(Signature on File)

Lorraine White
Standards Compliance Office Manager
California Energy Commission
