Dear Docket Office,

Please oppose the SMUD staff proposal that will deny thousands of new homeowners and renters the savings and security of rooftop solar and storage, and gut the state "Solar Homes" plan. SMUD's proposal will:

- * Discourage solar from being installed directly on new homes.
- * Make it harder for homeowners to add solar and storage later on.
- * Deny new residents the chance to save hundreds of dollars on their energy bills each year.
- * Deny new residents the ability to keep the lights on during blackouts.

On an individual level, my husband and I have rehabbed several historic buildings over the years and are currently in the design phase of what will be our last rehab project. We want to add solar to one of the buildings that we rehabbed a few years ago and we want the project that we are working on now to be all electric, net zero energy. The staff proposal will make it much harder for us to do these things.

Sincerely,
Karen Jacques
