## **PG&E creating a dangerous & deadly crisis with Abusive Power Shutoffs**

I am heartbroken over the health and welfare crisis that the power shutoffs have had on families, elderly and businesses of Ca. I watched a Channel 4 news reporter interview an elderly couple ( in 80's ) who had no power due to power shutoff by PG&E.

I am not one to cry easily, but I literally broke out in tears watching this poor man and his wife, sit in the dark with nothing but a flash light. They were both clearly confused and desperate.

They have a 2 story home with a chair lift because the wife cannot walk upstairs to there bedroom. It didn't work because no power. So, these 2 elderly souls had been just sitting in there chairs for 2 days , fearful and confused .

They clearly didn't have the ability to care for themselves during a power blackout. Had probably not eaten much if anything, no heat, no lights and no communication access. Literally left in the dark to fin for themselves.

If CPUC has any heart or soul left, they will find a way to stop these cruel and often dangerous power shutoffs by PG&E. Thank you.
