Opening Video

"Leading the Way to California's Clean Energy Future"

Welcome and Opening Comments

Commissioner Liane Randolph, *California Public Utilities Commission*

Ken Rider, Chief of Staff to Chair Hochschild, *California Energy Commission*

Agency Presentations

California's Climate Strategy and Carbon Neutrality, Stephanie Kato, California Air Resources Board

- Overview of California's clean energy and climate targets and key policy drivers. Discussion of how SB 100 fits into the state's various climate/energy policies, programs, and reports.

California Clean Electricity Programs Overview, Jason Ortego, California Public Utilities Commission

- Status update on California's progress toward transitioning to a clean electricity system, including the IRP process and key programs and policy implementation.

SB 100 Joint Agency Report Process and Implementation, Jim Bartridge, California Energy Commission

- Outline of SB 100 Report Requirements, interagency process, future workshops and public engagement, and a discussion of key questions for consideration in the SB 100 Report.
 - How should the SB 100 report approach and address system and local reliability? What key factors should be considered?
 - How should issues around equity (environmental, economic, social) and affordability be addressed?
 - How should land use planning issues be considered?
 - Other challenges or considerations?

Stakeholder Presentations and Q&A

Jose Torres, *California Environmental Justice Alliance*

Heather Tomley, *Port of Long Beach*

Jason Rondou, *Los Angeles Department of Water and Power*

Marilyn Gilbert, *Imperial Irrigation District*
