

DOCKETED

Docket Number:	19-BSTD-10
Project Title:	AHAM Kitchen Range Hood Directory Approval
TN #:	230494
Document Title:	EPA Test Laboratory Recognition
Description:	This document was embedded in the AHAM Part 6 Procedure Application, and shows that AHAM's test laboratory is recognized under the EPA's ENERGY STAR program.
Filer:	Peter Strait
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	11/4/2019 9:59:21 AM
Docketed Date:	11/4/2019

EPA Recognized Certification Bodies (CBs) and Laboratories List Results

The simple choice for energy efficiency.

ENERGY STRATEGIES FOR

buildings & plants

NOTES:

1. Only accredited laboratories are listed on this page. Laboratories that are EPA-recognized through enrolling in a Certification Body's WMTL or SMTL program are not listed here.
2. EPA encourages manufacturers to contact laboratories directly to ensure they have the capability and availability to test the particular products for which certification is sought, as some product types may require special testing equipment or capabilities. Manufacturers must also confirm with an EPA-recognized certification body (CB) that the laboratory is acceptable under the CB's program for that product type.
3. Windows, Doors, and Skylights partners are advised to contact the National Fenestration Rating Council (www.nfrc.org [EXIT→](#)) for a complete list of EPA-recognized laboratories for these products.
4. Please note, EPA recognizes the Association of Home Appliance Manufacturers (AHAM) only for administering verification testing.
