Notice of Staff Workshop on Future Equipment Requirements for CALeVIP

California Energy Commission (CEC) staff will conduct a public workshop to collect stakeholder input on the future eligibility requirements for CALeVIP equipment. The workshop will present the current equipment requirements and then go into detail on the additional proposed requirements and their implementation dates.

Commissioners from the CEC may attend this workshop, but no votes will be taken. The workshop will be held on:

November 18, 2019
10:00 a.m. to 3:00 p.m.

California Energy Commission
1516 Ninth Street
1st Floor, Imbrecht Hearing Room
Sacramento, California 95814
(Wheelchair Accessible)

Remote access is available by computer or phone via WebEx.™
(Instructions below.)

Agenda

1. CALeVIP Background
2. Current Equipment Requirements
3. Updated Proposal for Future Equipment Requirements
4. Analysis of Equipment Hardware and Software Technologies
5. Public Roundtable Discussion on Features Demanded and Product Supply Chain
6. Proposed Timelines for Implementation
7. Questions and Wrap Up

Background

Assembly Bill 118 (Núñez, Chapter 750, Statutes of 2007), created the Clean
Transportation Program (formerly known as the Alternative and Renewable Fuels and Vehicle Technology Program). The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state’s climate change and clean air goals. Assembly Bill 8 (Perea, Chapter 401, Statutes of 2013) reauthorized the funding program through January 1, 2024.

As of July 2019, the CEC has invested nearly $94.9 million through the Clean Transportation Program for over 9,600 charging connectors at public and private sites in California. To provide more focused plug-in electric vehicle (PEV) infrastructure projects that will target more specific projects and gaps in charging availability, the CEC issued Grant Funding Opportunity, GFO-16-603, to seek a block grant recipient to design and implement up to $200 million in grant funds through various PEV charger incentive projects throughout California. The Center for Sustainable Energy was selected through a competitive process to implement CALeVIP.

CALeVIP is a project with an online interface that allows individuals who are interested in installing electric vehicle chargers to easily access resources, connect with companies that sell or install chargers, and apply for rebate funding via a simplified and streamlined process.

To date, CALeVIP has four active incentive projects that provide $57 million in rebate funding from the CEC for Level 2 and DC fast chargers. One additional incentive project will launch in 2019 and three projects have been announced for 2020.

*projects that have partnerships that are providing additional funding on a fiscal year basis.
The current CALeVIP equipment requirements are listed below.

Level 2 Chargers must:
- Utilize the SAE J1772 charging connector.
- Be ENERGY STAR® certified.
- Be internally networked.
- Be capable of delivering at least 6.2kW.
- Be able to revert to an open standard protocol.
- Be approved by a Nationally Recognized Testing Laboratory (NRTL) program.

DC Fast Chargers must:
- Utilize both the CHAdeMO and SAE CCS connector.
- Be internally networked.
- Be capable of delivering at least 50kW.
- Be able to revert to an open standard protocol.
- Be approved by a Nationally Recognized Testing Laboratory (NRTL) program.

Public Comment

**Oral comments:** Staff will accept oral comments during the workshop. Comments may be limited to three minutes per speaker and one speaker per organization. Any comments may become part of the public record for this proceeding.

**Written comments:** Written comments must be submitted to the Docket Unit by 5:00 p.m. on December 13, 2019. Written comments will also be accepted at the workshop; however, the CEC may not have time to review them before the conclusion of the meeting.

Written and oral comments, attachments, and associated contact information (e.g. address, phone number, and email address) become part of the viewable public record. This information may also become available via any Internet search engine.

The CEC encourages use of its electronic commenting system. Visit https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=17-EVI-01, which links to the comment page for this docket. Select or enter a proceeding to be taken to the “Add Comment” page. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the “Comment Text” box or attached in a downloadable, searchable Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) file. Maximum file size is 10 MB.

Written comments may also be submitted by email. Include the docket number 17-EVI-01 and Future Equipment Requirements for CALeVIP in the subject line and send to docket@energy.ca.gov.
If preferred, a paper copy may be submitted to:

Public Advisor and Other CEC Contacts

The CEC’s Public Advisor’s Office provides the public assistance in participating in CEC proceedings. For information on how to participate in this forum, please contact Public Advisor Noemí O. Gallardo, at PublicAdvisor@energy.ca.gov, (916) 654-4489 or toll free at (800) 822-6228.

Please direct requests for reasonable accommodation to Yolanda Rushin at Yolanda.Rushin@energy.ca.gov or (916) 654-4310 at least five days in advance.

Media inquiries should be directed to the Media and Public Communications Office at MediaOffice@energy.ca.gov or (916) 654-4989.

Questions on the subject matter of this meeting should be directed to Brian Fauble at Brian.Fauble@energy.ca.gov or (916) 654-3974.

Remote Attendance

WebEx is the CEC’s online meeting service. When attending remotely, presentations will appear on your computer/laptop/mobile device screen and audio may be heard via the device or telephone. Please be aware that the WebEx meeting may be recorded. WebEx technical support is available at 1-866-229-3239.

Via Computer: Go to https://energy.webex.com/ec. If this event is listed, click “Join.” If not, click the “Home” tab on the top left of your screen and enter Event Number 924 455 131. When prompted, enter your name and email address. The password for the workshop is Meeting@10 (case sensitive).

The “Join Conference” menu offers a choice of audio connections:

1. To call into the meeting, select "I will call in" and follow the on-screen directions.
2. International attendees, select "Global call-in number."
3. To have WebEx call you, enter your phone number and click “Call Me.” This step will not work if your number has an extension.
4. For Internet audio: If you have a broadband connection, a headset, or a computer microphone and speakers, you may use VoIP (Internet audio). Go to the audio menu and click “Use Computer Headset,” then “Call Using Computer.”

Via Telephone: (no visual presentation): Call 1-866-469-3239 (toll free in the U.S. and Canada) and when prompted, enter the meeting number above. International callers may select a number from https://energy.webex.com/energy/globalcallin.php.

Muting: We greatly appreciate your cooperation in reducing background noise on the audio connection by muting your line when you are not speaking. Mute your line rather than placing your phone on hold. Using WebEx, right click on your name in the panelists or attendees list and select “Mute.” If you are using a telephone connection, press “*6” once to mute and again to unmute.

Availability of Documents

Documents and presentations for this meeting will be available at https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=17-EVI-01.
