**NOTICE OF RECEIPT**  
**PETITION FOR POST CERTIFICATION PROJECT CHANGE**  
**MOJAVE SOLAR PROJECT (09-AFC-05C)**

On October 24, 2019, Mojave Solar LLC (project owner) filed a post certification petition with the California Energy Commission (CEC) for the Mojave Solar Project. The 250-megawatt solar electric generating project was certified by the CEC in August 2006, and began commercial operation in December 2014. The facility is located between Barstow and Kramer Junction, approximately nine miles northwest of Hinkley.

**SUMMARY OF PROPOSED CHANGES**

The project owner is requesting to construct a new building/staging area to facilitate the operation and maintenance of the facility. This new area would allow the facility to store essential spare parts needed for facility reliability.

This Notice of Receipt has been mailed to the facility's mail list of interested parties and property owners adjacent to the facility site. The petition requesting the project change has been docketed and is available on the CEC's webpage for this facility at:

<https://ww2.energy.ca.gov/sitingcases/abengoa/index.html>.

**REVIEW PROCESS**

The review process includes an evaluation of the proposed change on the environment, the project's compliance with applicable laws, ordinances, regulations or standards and if a change to or deletion of a condition of certification is required.

After staff has completed its independent review and analysis of this petition, staff will publish an assessment for public review and comment. Staff will also provide written notice of its intent to either process the proposed changes as a staff approved project change or schedule the project change to be heard for consideration by the CEC at a regularly scheduled business meeting.
