California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Joan Smith

From: [Annie Stuart](#)

California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

California has gained international acclaim as a leader in the effort to combat the climate crisis that is upon us. For that very reason, the requirement of installation of solar on every new rooftop in California makes absolute sense. To retreat now will make this state and its leaders look foolish and hypocritical. Of course vested interests are going to fight against many new climate change initiatives, but we must resist. Please do not support efforts to make California a toothless tiger in what is going to be a battle for our lives and the lives of the other species with whom we share this planet.

Sincerely,

Sincerely,
Barbara Hadsell

California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Please do not cave in to the building industry who only look to their short term profits. Every homeowner with a solar roof will benefit from reduced energy bills that more than offset increased purchase cost.

Our fight for a cleaner and sustainable environment should not be side tracked by industry looking for short term profits.

Sincerely,

Sincerely,
Gloria Schneider

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,
Todd

Sincerely,
Todd Miller
