California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

This option is one way to battle climate change that is happening across our world.

Sincerely,

Sincerely,
Barbara Speidel

From: [Allie Palmer](#)

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

We put solar on our roof. Next we'll get batteries for storage, in order to be a resilient and independent of power suppliers as possible.

While centralized solar power may make economic sense in some places, don't weaken current requirements for new construction with solar.

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Alan Weiner

I put 40 solar panels on our house roof in 2002. In 2005, when some condominiums were being built nearby, I asked the developer "Why not?" People thought I was crazy. We need to keep the mandate to push this along.

Sincerely,
Jerome Krinock
