California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

It is my firm belief that California and my fellow citizens can lead the way to achieving zero carbon emissions energy production over the next decades, but important steps must be taken now.

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Brent G. Wakefield

Sincerely,
Brent Wakefield

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Building developers should not be given the option to make payments to remote solar 'community' farms - which will (or should) be created ANYWAY - as credit equivalent to putting solar roofs on their own buildings.

A bit of extra credit of another kind, maybe, but no credit in lieu of solar roofs : because every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from the important solar roofs program. Please require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Joseph Weinstein

California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Patricia Lewis
