California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Judy Carlson

California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

I have a friend who bought into a small development with roof-top solar and storage batteries in every unit. She sells her unused electricity back to SMUD and rarely has a bill in the double digits, even when heat is in the triple-digits.

To me, this model is the way to take the burden off the grid; turn to clean energy sources leaving coal and harmful fossil fuels behind; and ensure sustainable energy for all those new homes going forward.

While I am quite fond of SMUD as a public utility, letting them provide solar in lieu of the requirements of existing programs is a very bad idea. For one, the homeowners will cede their energy and the equipment to SMUD, and every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Julie Kanoff

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Cheryl Leslie

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Irene Dobrzanski
