RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California. We would not have to worry about a loss of power if every city had their own power, and lines did not have to criss-cross all over the state.

Sincerely,

Sincerely,
Edith Ogella
