California Energy Commission

RE: Docket 19-BSTD-08: California Needs Solar Roofs

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

Sincerely,

Sincerely,
Karla Smutz

null

California Energy Commission,

Every new roof without solar is a major missed opportunity to lock in pollution-free solar energy. I strongly urge you not to retreat from this important program, and require solar installations on every new rooftop in California.

I put PV on my roof more than 20 years ago - because it made sense. And it still does. Even with all the tall trees, thus shade, in my neighborhood, I still get 8 hours of sun on my panels. Every home should have as much PV as space can be found - and roof lines should be designed with sun angles in mind.

Sincerely,

Sincerely,
Virginia Smedberg
