It sure would be nice to know that these installations would be going into the reservations of the Native American nations where they belong. We have taken enough resources and we need to get back to the impoverished because of our overuse of electricity. Therefore I beg you that you start with helping the nation's that started America and deserve their homes to have clean water Gas and energy from solar panels like everyone poor to rich this can happen now. We have the resources. Life is not here for the greedy.

**Subject: Automatic reply from the California Energy Commission  
Docket Unit.**

Thank you for contacting the Docket Unit. If your document(s) have been properly submitted for filing in a proceeding's docket, they will be filed during business hours. If received after 5:00 p.m., they will be deemed filed on the next business day. Title 20, California Code of Regulations, section 1208.

For faster service, please electronically file your document(s) or comments online by clicking on the appropriate link on our gateway page: <http://www.energy.ca.gov/e-filing/index.html>. Alternatively, you can find links on many of our proceedings' web pages.

All pdf versions of filed documents need to be word searchable, if feasible. Title 20, California Code of Regulations, section 1208.1. Optical character recognition (OCR) can be used to make scanned documents word searchable. The better method is to save them to pdf format from your word processor. Pdf versions of filed documents that are not word searchable may be rejected.

If your email requests a response, the Docket Unit staff will do so within one (1) business day.
