Balanced Energy

I hope you will consider having a diverse approach to energy. As the latest round of power shut-downs showed when it was used to prevent or control fires in Los Angeles, it is important to have alternative energy sources. I want to have the right to have gas stoves and heaters exactly for that reason. I just leased a plug-in hybrid with an eye to lease or purchase an EV in three years. After the recent events, I'm not sure I want to go all electric. Homeowners shouldn't be limited so strictly. Thank you.
