Docket Number: 19-BSTD-06

REACH Codes

I strongly urge the commission not to adopt REACH codes. These will undermine the freedom of individual consumers to choose the energy type that suits their individual needs and requirements.

Also, if forced to only use electric the costs will be prohibitive to normal, blue collar families and young professionals who need every available penny to get by in this overly regulated and overly expensive state.

Thank you for thinking of the normal citizen and not the big donors.

Cordially,
Art Thomas
