## **Local Reach Codes Inform Updates to the Standards**

Dear Commissioners-

I want to thank you for all your hard work on development of the 2019 Standards and your continuing efforts to improve them through mid-cycle and near-term solutions for industry. I want to continue to support your efforts and encourage you to look to the local reach code ordinances for improvements to the Standards as they have over the lifetime of Title-24 Part 6. As some comments have come in we want to stand with the intent of reach codes to further enforce and enhance Title-22 Part 6 and each of the local reach codes have been proven cost effective in strict adherence to the Warren Alquist Act. We stand by you as you follow the letter of the law and pass these local reach codes presented to the commission to allow our local jurisdictions to lead the way on climate change.

Sincerely,  
Ted M. Tiffany
