Docket Number: 19-BSTD-06

Reconsider and Reject REACH CODE APPROVALS

The REACH Codes will deprive residents of the flexibility to use less expensive power sources that are alternatives to electricity, increase energy dependency on electricity, and lead to energy unreliability due to an overburdened power grid.

The adoption of the REACH codes will undermine statewide codes and standards, prohibiting a balanced approach to energy policy. The intent of the CEC is to prevent overreliance on one energy source. Please reconsider locally adopted REACH codes.
