- [Subject: Comments to Workshop Hourly Temperature Data on Cal-Adapt](#)

I've noticed increased interest in hourly weather and related hydrologic/other variable information

This high temporal resolution info is particularly important for extreme event characterization.

Since it will be difficult for Cal-Adapt to ingest, process and display all variables, all cases, all times, it may be useful, in addition to Cal-Adapt's offerings to develop a catalogue identifying such data records, with pointers to sources.

thanks,

Dan Cayan
