## **RPS-16-03 PUC 399-33-(b)(3) Resource Shuffling**

RPS-16-03 PUC 399.33.(b)(3) Resource Shuffling

Pursuant to Public Utilities Code - PUC 399.33. (b) (3), The local publicly owned electric utility has attempted to mitigate against the reduction of generation to below 20 percent of the powerplant's total capacity by attempting to sell the powerplant or attempting to sell the generation from the powerplant to the extent it is practicable and does not result in resource shuffling.

What is the definition of "resource shuffling"?su
