### **Agenda**

This workshop will discuss future research and budget requests for the FY 2020-21 Natural Gas Research and Development Program.

Research suggestions can be provided to our [Research Idea Exchange](https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=19-ERDD-01) at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=19-ERDD-01>.

### **Background**

In 2004, the California Public Utilities Commission (CPUC) designated the CEC as the administrator for the natural gas research fund (Decision 04-08-010). The CEC manages these funds through the Natural Gas R&D Program. Staff will discuss research initiatives across all natural gas research areas including: energy efficiency, renewable energy, natural gas infrastructure and safety, natural gas-related environmental research, and natural gas-related transportation research.

Feedback will be gathered on the proposed natural gas research initiatives from utilities, researchers, manufacturers, end-users, environmental and consumer representatives, policymakers from state agencies, federal agencies, California based organizations and members of the public. Commissioners may attend the workshop, but no votes will be taken.

Results from the workshop will assist CEC staff in developing the proposed natural gas research plan for FY 2020-21, which will be presented to the CPUC for final approval.

## **Public Comment**

**Oral comments:** Staff will accept oral comments during the workshop. Comments may be limited to five minutes per speaker and one speaker per organization. Any comments may become part of the public record for this proceeding.

**Written comments:** Written comments must be submitted to the Docket Unit by **5:00 p.m. on January 24, 2020**. Written comments will also be accepted at the workshop; however, the CEC may not have time to review them before the conclusion of the meeting.

Written and oral comments, attachments, and associated contact information (e.g. address, phone number, email address) become part of the viewable public record. This information may also become available via any Internet search engine.

**CEC staff is seeking input on the following prior to the workshop:**

- **What CEC natural gas research and development initiatives would effectively support low income and disadvantaged communities?**
