AES/CEC Meeting on Fe 10, 2014 - My input

My name is Jim Hannon and I am a longtime resident of Redondo Beach. I have the pleasure of having a wonderful ocean view from my patio. I am not sure this is completely accurate, but I believe, the air I breathe from my patio has been filtered and cleaned over a many months blowing across the Pacific Ocean.

What a shame that when the clean air reaches the city of Redondo Beach, its then polluted from the toxics omitted from the AES Plant, and this same air become a hazard to not only the residences of Redondo Beach, but the hundreds of thousands of adults, and children that live downstream from the AES Plant.

I urge you to come up with a better solution then to rebuild the AES Plant in Redondo Beach!
