Do not allow SMUD any exceptions to the Solar Mandate for new homes

Dear Docket Office,

Don't allow SMUD any exceptions with regard to the solar mandate for new California homes in their service area. I urge you to oppose the proposal by the Sacramento utility to effectively keep solar panels and batteries from being put into new home construction.

This would set a dangerous precedent, and every utility in the state will likely follow suit. This will gut the state's solar homes program at a time when we should be making it as easy as possible for our new neighbors to make and store their own solar energy at home and at work.

Solar will immediately save these homeowners money on their utility bills, and the cost of solar is easily offset by these bill reductions through existing financing mechanisms.

Please do your part to help California meet its CO2 emission goals.

Sincerely,
Rene Voss
San Anselmo, CA 94960
