## **Initiative CSP.1: Improve Cleaning Systems for CSP Mirrors**

It is imperative to reach beyond the borders of California and the U.S. to provide information needed to select, assess and manage projects and initiatives connected to Initiative CSP.1. Do not re-invent the wheel. Contact: Fabian Wolfertstetter, email: [fabian.wolfertstetter@dlr.de](mailto:fabian.wolfertstetter@dlr.de)

I have reviewed the draft Utility-Scale Renewable Energy Generation Technology Roadmap, including its references and appendices. I see only one CSP-relevant reference regarding soiling: Griffith, D.J. et al. 2014. This comment also takes note of APPENDIX C: (related initiatives).
