Diamond Bar, CA 91765-4178

**Subject: Verification of the Public Notice Distribution for the Redondo Beach Energy Project Permit Application (Facility ID# 115536)**

Dear Ms. Lee:

Pursuant to the letter dated June 13, 2014 from Mr. Mohsen Nazemi of the South Coast Air Quality Management District (SCAQMD) to Mr. Stephen O’Kane of AES Redondo Beach, LLC (AES) regarding the issuance of the Permit to Construction and a revised Title V permit for Facility ID 115536, attached is the verification that the public notice was distributed to all addresses within one-quarter mile of the facility. Addresses for this public notice distribution were identified using ArcGIS geocoding tools and 2010 street address data provided by ESRI.<sup>1</sup> A map of the area where the public notices were distributed is attached.

If you require further information, please don’t hesitate contacting me at 562-493-7840.

Sincerely,

A handwritten signature in blue ink that reads "S. O'Kane".

Stephen O’Kane  
Manager  
AES Redondo Beach, LLC

## NOTICE OF INTENT TO ISSUE PERMITS PURSUANT TO SCAQMD RULES 212, 1710, 1714, AND 3006

This notice is to inform you that the South Coast Air Quality Management District (SCAQMD) has received permit applications from AES Redondo Beach, LLC for the Redondo Beach Energy Project (RBEP) which will consist of the replacement of four existing older and less efficient large electric generating utility boilers with three new, more efficient electric generating gas turbines at Redondo Beach Generating Station in Redondo Beach. After a careful review and a detailed evaluation of the RBEP, SCAQMD has determined that the proposed project complies with all applicable federal, state and local air quality rules and regulations. Therefore, SCAQMD intends to issue Permits to Construct for the RBEP and to revise the Title V permit for this facility upon California Energy Commission's (CEC's) completion of the application for certification process and approval of the license for the RBEP. In addition, prior to issuance of the final Title V permit, SCAQMD is providing an opportunity for public comments on the SCAQMD's proposed decision.

The SCAQMD is the air pollution control agency for the four-county region including all of Orange County and non-desert parts of Los Angeles, Riverside and San Bernardino Counties. Anyone wishing to install or modify equipment that could control or be a source of air pollution within this region must first obtain a permit from the SCAQMD. Under certain circumstances, before a permit is granted, a public notice, such as this, is prepared by the SCAQMD. For this project, public notification is required in accordance with SCAQMD Rule 212(c)(2), Rule 212(g) and Rule 1710(b) because the emissions from the new gas turbines exceed the public notice thresholds for these rules. Public notification is also required by SCAQMD Rule 3006(a) and Rule 1714(e) because there will be a significant revision to the facility's existing Title V air permit and the RBEP is subject to a Prevention of Significant Deterioration (PSD) Permit due to its greenhouse gas emissions.

The SCAQMD has evaluated the permit applications listed below for the following facility and determined that the RBEP meets or will meet all applicable federal, state and SCAQMD air quality rules and regulations as described below:

**FACILITY:** AES Redondo Beach LLC  
Facility ID No. 115536  
1100 N. Harbor Dr.  
Redondo Beach, CA 90277

**CONTACT:** Stephen O'Kane  
Manager Sustainability and  
Regulatory Compliance  
AES Southland

Long Beach, CA 90803

### SCAQMD APPLICATION NUMBERS

Application Number	Equipment Description
545068	Mitsubishi 501DA Combined Cycle Gas Turbine Generator, Unit 03-A
545069	Mitsubishi 501DA Combined Cycle Gas Turbine Generator, Unit 03-B
545070	Mitsubishi 501DA Combined Cycle Gas Turbine Generator, Unit 03-C
545066	Air Pollution Control Equipment, SCR and CO Catalyst for Unit 03-A
545067	Air Pollution Control Equipment, SCR and CO Catalyst for Unit 03-B

Application Number	Equipment Description
545071	Air Pollution Control Equipment, SCR and CO Catalyst for Unit 03-C
545072	Aqueous Ammonia Storage Tank
549120	Oil Water Separator
545065	Title V/RECLAIM Significant Permit Revision

### **PROJECT DESCRIPTION**

The proposed RBEP will replace the four existing electric utility boiler generator Units 5, 6, 7, and 8 that are older, less efficient units and which have been in operation since the 1950's (Units 5 and 6) and 1960's (Units 7 and 8) with a new, more efficient gas turbine generating system. The new generating system will consist of three natural gas-fired Mitsubishi 501DA combined cycle gas turbine generators configured as a 3-on-1 power block with a steam turbine generator. The combined generating capacity of the RBEP will be 546.4 MW. This capacity replaces the generating capacity of the existing Unit 7 (480 MW) and Units 6 and 8 (66.4 MW of 655 MW total). The surplus 588.6 MW from the shutdown of Units 6 and 8 will be used to offset the repowering projects at AES Huntington Beach and AES Alamitos. The new RBEP will be equipped with air pollution control equipment, which consists of catalysts (selective catalytic reduction and oxidation catalysts). Additional new proposed equipment will include a 12,000 gallon aqueous ammonia storage tank and an oil water separator.

### **EMISSIONS**

During normal operation, the total potential maximum daily, monthly, and annual emissions of criteria pollutants from the operation of the new RBEP are estimated not to exceed the emission levels listed in the table below. In addition, the new RBEP will generate emissions of greenhouse gases (GHGs). The total quantity of GHGs is calculated using the global warming potential for each compound and expressed in an amount equivalent to Carbon Dioxide (CO<sub>2</sub>) emissions (CO<sub>2</sub> equivalent). The emissions listed below are strictly from the new equipment and do not include any emission reductions associated with the removal from service of the existing electric utility boiler generator Units 5, 6, 7 and 8.

Pollutant	Max Potential Emissions (Tons)		
	Daily	Monthly	Annual
Nitrogen Oxides (NO <sub>x</sub> )	0.50	15.27	121.5
Carbon Monoxide (CO)	0.74	18.87	138.7
Volatile Organic Compounds (VOC)	0.37	11.10	82.3
Particulate Matter (diameter less than 10 microns, PM <sub>10</sub> or diameter less than 2.5 microns, PM <sub>2.5</sub> )	0.21	6.42	49.65
Sulfur Oxides (SO <sub>x</sub> )	0.08	2.37	6.45
Ammonia (NH <sub>3</sub> )	0.36	10.73	128.77
Carbon Dioxide equivalent (CO <sub>2</sub> <sub>equivalent</sub> )	4774.85	143,245.38	1,718,944.60

The proposed RBEP will not result in an increase in the electrical generating capacity since the total electrical generating capacity of the new RBEP is offset by the generating capacity it replaces. SCAQMD Rule 1304(a)(2) provides an offset exemption for an electric utility boiler replacement project such as this project. Therefore, the applicant is not required to provide emission offsets for VOC, PM<sub>10</sub>, and SO<sub>x</sub>. Also, the South Coast Air Basin meets and is in attainment with ambient air quality standards for CO, so no CO offsets are required. All of the NO<sub>x</sub> emissions from this facility have to be offset with emission credits that AES Redondo Beach, LLC either holds or purchases through the Regional Clean Air Incentive's Market (RECLAIM) in the form of RECLAIM Trading Credits (RTCs). Finally, the total facility's potential emissions (the proposed new RBEP) of PM<sub>2.5</sub> will be limited to less than 100 tons per

year, therefore the new RBEP will not trigger the threshold for PM<sub>2.5</sub> offset requirements as per SCAQMD Rule 1325. The NO<sub>x</sub> RTCs are required to be provided by AES Redondo Beach, LLC prior to the RBEP commencing its operation in accordance with SCAQMD RECLAIM Rule 2005.

As a result of burning natural gas in the gas turbines, emissions from the proposed project also contain small quantities of pollutants that are considered air toxics under SCAQMD Rule 1401-New Source Review of Toxic Air Contaminants. Therefore, a health risk assessment (HRA) has been performed for the RBEP. The health risk assessment uses health protective assumptions in estimating maximum risk to an individual person. Even assuming this health protective condition, the evaluation shows that the maximum individual cancer risk (MICR) increase from each gas turbine, even without considering the emission reductions from old equipment being replaced, is less than one-in-one million and in compliance with SCAQMD's risk thresholds listed in Rule 1401. Also, acute and chronic indices, which measure non-cancer health impacts, are less than one. According to the state health experts, a hazard index of one or less means that the surrounding community including the most sensitive individuals such as very young children and the elderly will not experience any adverse health impacts due to exposure to these emissions. These levels of estimated risk are below the threshold limits of SCAQMD Rule 1401 (d) established for new or modified sources. The HRA results are shown in the table below:

Health Risks

Equipment	MICR (in a million)		Non-Cancer Hazard Index	
	Resident	Worker	Chronic	Acute
Gas Turbine No. 03-A	0.69	0.13	0.00218	0.0206
Gas Turbine No. 03-B	0.66	0.12	0.00206	0.0144
Gas Turbine No. 03-C	0.65	0.11	0.00205	0.0116
Rule 1401 Limit	1.0		1.0	

**PREVENTION OF SIGNIFICANT DETERIORATION (PSD) FOR CRITERIA POLLUTANTS**

The South Coast Air Basin is in attainment with the national ambient air quality standards for Nitrogen Dioxide (NO<sub>2</sub>), Sulfur Dioxide (SO<sub>2</sub>), Carbon Monoxide (CO) and Particulate Matter with aerodynamic diameter less than 10 microns (PM10); therefore, the NO<sub>2</sub>, SO<sub>2</sub>, CO, and PM10 emissions from the project are subject to the SCAQMD's Prevention of Significant Deterioration (PSD) regulation (Regulation XVII).

The Redondo Beach Generating Station is classified as a major stationary source, and the estimated maximum project emissions of NO<sub>2</sub> of 31.91 micro grams per cubic meter (µg/m<sup>3</sup>) exceed the PSD significance impact level (SIL) of 7.5 µg/m<sup>3</sup>. Therefore, an incremental modeling analysis is required to demonstrate that the proposed RBEP does not cause, or make significantly worse an existing, 1-hour NO<sub>2</sub> violation of the national ambient air quality standard (NAAQS). The results of the incremental modeling analysis show that the peak contribution from the proposed RBEP is 142.62 µg/m<sup>3</sup> and therefore does not result in a violation of the existing 1-hour NO<sub>2</sub> NAAQS of 188 µg/m<sup>3</sup>.

Also based on the result of a screening analysis of the potential impacts to Class I wilderness areas, the RBEP will not impact visibility on the nearest Class I area (i.e., San Gabriel Wilderness). Based on all of these analysis and evaluations, the SCAQMD has determined that the proposed RBEP is expected to comply with all PSD requirements for criteria pollutants.

**PREVENTION OF SIGNIFICANT DETERIORATION (PSD) FOR GREENHOUSE GASES**

Based on the proposed RBEP maximum potential greenhouse gas (GHG) emissions, the proposed project is subject to preconstruction review for GHGs. SCAQMD staff has evaluated the GHG emissions from the RBEP for compliance determination with applicable federal, state, and local air quality requirements. The RBEP is found to comply with Rule 1714 BACT requirements for GHG emissions through the use of energy efficient gas turbines.

**Based on the result of our detailed analysis and evaluation, the SCAQMD has determined that the RBEP complies with all applicable federal, state and SCAQMD air quality Rules and Regulations and, therefore, SCAQMD intends to issue the Permits to Construct for the equipment described above. In addition, prior to issuance of a final permit, SCAQMD is providing an opportunity for a 30-day public comment period and an EPA review period. SCAQMD will consider issuance of the final permit only after all pertinent public and EPA comments, if any, have been received and considered, and upon CEC's completion of the Application for Certification process and approval of the license for the RBEP.**

This facility is classified as a federal Title IV (Acid Rain) and Title V facility. Pursuant to SCAQMD Rule 3006 – Public Participation, any person may request a proposed permit hearing on an application for an initial, renewal, or significant revision to a Title V permit by filing with the Executive Officer a complete Hearing Request Form (Form 500G) for a proposed hearing within 15 days of the date of distribution of this notice. This form is available on the SCAQMD website at <http://www.aqmd.gov/docs/default-source/grants/500-g-form.pdf?sfvrsn> or alternatively, the form can be made available by contacting Ms. Vicky Lee at the e-mail and telephone number listed below. In order for a request for a public hearing to be valid, the request must comply with the requirements of SCAQMD Rule 3006 (a)(1)(F). On or before the date the request is filed, the person requesting a proposed permit hearing must also send by first class mail a copy of the request to the facility address and contact person listed above.

The proposed permits and other information are available for public review at the SCAQMD's headquarters in Diamond Bar, and at the Redondo Beach Public Library, 303 N. Pacific Coast Highway, Redondo Beach, CA 90277. Additional information including the facility owner's compliance history submitted to the SCAQMD pursuant to California Health and Safety Code Section 42336, or otherwise known to the SCAQMD, based on credible information, is available at the SCAQMD for public review by contacting Ms. Vicky Lee (vlee1@aqmd.gov), Engineering and Compliance, South Coast Air Quality Management District, 21865 Copley Drive, Diamond Bar, CA 91865-4182, (909) 396-2284. A copy of the draft Permits to Construct can also be viewed at <http://www3.aqmd.gov/webappl/PublicNotices2/>. Anyone wishing to comment on the air quality elements of the permits must submit comments in writing to the SCAQMD at the above address, attention Mr. Andrew Lee. **Comments must be received within 30 days of the distribution date of this notice, as shown below.** If you are concerned primarily about zoning decisions and the process by which the facility has been sited in this location, contact the local city or county planning department for the city or unincorporated county in which the facility is located. For your general information, anyone experiencing air quality problems such as dust or odor can telephone in a complaint to the SCAQMD 24 hours a day by calling toll free 1-800-CUT-SMOG (1-800-288-7664).
