Table

DR93-1 ESEC Demolition and Construction Contractor Staff by Month

Introduction

Attached are El Segundo Energy Center LLC's (Applicant's) responses to the California Energy Commission (CEC) Staff's Data Request Set 4, regarding the El Segundo Energy Center (ESEC) proposed in the ESEC Petition to Amend (00-AFC-14C).

The Applicant's response and enclosed table are keyed to the Data Request number. The response is numbered 93, and the table is numbered Table DR93-1.

Socioeconomics (93)

BACKGROUND

Table DR84-1 in applicant's Data Responses Set 2 pursuant to staff's Data Request 84 presents the El Segundo Power Facility Modification demolition and craft construction workforce by month and by trade type (e.g. boilermakers, carpenters, plumbers). This information is helpful for staff to match up workforce needs with labor supply, as reported by the California Employment Development Department's Projections of Employment by Industry and Occupation. Table DR84-1 does not specify the contractor staff by craft type or by standard occupation classification code (SOC). This information would assist staff in matching project workforce with available labor supply.

DATA REQUEST

93. Please identify the types of occupations associated with the contractor estimates provided in Table DR84-1. This should include a description of the work conducted by each craft type of contractor and the identification of an associated SOC code, where applicable.

Response: In Table DR93-1 below, Applicant has specified the contractor position categories associated with the contractor staff estimates Applicant previously provided in Table DR84-1 of Data Response Set 2.

TABLE DR93-1.
