NOTICE OF STAFF WORKSHOP

California Energy Commission (CEC) staff will conduct a workshop to request comments on its upcoming design-build competition titled *The Next EPIC Challenge: Reimagining Affordable Mixed-Use Development in a Carbon-Constrained Future*. The CEC will provide up to \$48 million to challenge multi-disciplinary project teams to design and build a mixed-use development that is affordable, equitable, and emissions-free.

**FEBRUARY 27, 2020
10:00 AM - 12:00 PM**

**SDG&E Energy Innovation Center
4760 Clairemont Mesa Blvd
Cabrillo BC Room
San Diego, California 92117
(Wheelchair Accessible)**

Remote access is available by computer or phone via WebEx.™
(Instructions below.)

Agenda

CEC staff will conduct a public workshop to solicit stakeholder input on the CEC's upcoming design-build competition titled *The Next EPIC Challenge: Reimagining Affordable Mixed-Use Development in a Carbon-Constrained Future*.

The Next EPIC Challenge is envisioned as a two-phase competition that will challenge teams to design and build a mixed-used development concept capable of achieving zero greenhouse gas emissions. Teams are expected to be selected and funded for the Design Phase of the competition with the opportunity to compete to advance to the Build Phase.

At the workshop, CEC staff will present the draft parameters, rules and timeline for the competition to the public. After the staff presentation, workshop participants will have the opportunity to comment and suggest changes to the competition rules and

parameters. In addition, this workshop will provide an opportunity for potential applicants to discuss partnering opportunities with one another.

Background

Climate change and housing affordability present two of the most significant challenges facing California. To avoid the most severe impacts of climate change, California has set aggressive policy goals to decarbonize its energy sector by 2045. Building decarbonization is a key strategy for achieving the state's goals to reduce greenhouse gas emissions. At the same time California is moving to decarbonize its building stock, the state also faces a housing affordability crisis. The lack of affordable housing options has led to rising housing costs in which over 50 percent of households in the state cannot afford to live in the area where they work. Smart growth strategies, such as medium- to high- density mixed-use development, are key strategies for addressing the housing crisis. However, the pathway to zero-emission mixed-use development is likely not feasible using current commercial technologies and standard building design and construction practices. Furthermore, smart growth strategies have the potential to escalate gentrification and displacement of low-income households.

To address the challenges described above, stakeholders are pursuing a number of promising innovations in the areas of architecture, planning, policy, technology, construction, and financing. However, to simultaneously bend both curves (greenhouse gas emissions and rising housing costs), these innovations will need to come together into new models capable of disrupting the way housing is planned, designed, financed, and ultimately built. To that end, the CEC is planning to release a two-phase competition that will provide up to \$48 million to challenge multi-disciplinary project teams to design and build a mixed-use development that is affordable, equitable, and emissions-free. Stakeholders, including prospective applicant teams, are encouraged to submit comments on the staff concept that will be presented at the workshop. Energy Commission staff will take into consideration stakeholder comments into the final funding opportunity that is expected for release later this year.

Public Comment

Oral comments: Staff will accept oral comments during the workshop. Comments may be limited to three minutes per speaker and one speaker per organization. Any comments may become part of the public record for this proceeding.

Written comments: Written comments must be submitted to the Docket Unit by **5:00 p.m. on March 20, 2020**. Written comments will also be accepted at the workshop; however, the Energy Commission may not have time to review them before the conclusion of the meeting.

Written and oral comments, attachments, and associated contact information (e.g.; address, phone number, email address) become part of the viewable public record. This information may also become available via any Internet search engine.

The Energy Commission encourages use of its electronic commenting system. Visit <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=19-ERDD-01>, which links to the comment page for this docket. Select or enter a proceeding to be taken to the "Add Comment" page. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached in a downloadable, searchable Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) file. Maximum file size is 10 MB.

Written comments may also be submitted by email. Include the docket number 19-ERDD-01 and *Design-Build Competition for Zero-Emission Mixed-Use Development* in the subject line and send to docket@energy.ca.gov.

If preferred, a paper copy may be submitted to:

Public Advisor and Other Commission Contacts

The CEC's Public Advisor's Office provides the public assistance in participating in CEC proceedings. For information on how to participate in this forum, or to request language services or other reasonable accommodations, please contact the Public Advisor, Noemí O. Gallardo, at PublicAdvisor@energy.ca.gov, or by phone at (916) 654-4489, or toll free at (800) 822-6228, or via fax at (916) 654-4493. Requests for language services and reasonable accommodations should be made at least five days in advance. The CEC will work diligently to accommodate late requests.

Media inquiries should be directed to the Media and Public Communications Office at MediaOffice@energy.ca.gov or (916) 654-4989.

Questions on the subject matter of this meeting should be directed to Katrina Leni-Konig at Katrina.Leni-Konig@energy.ca.gov or (916) 445-5310.

Remote Attendance

WebEx is the Energy Commission's online meeting service. When attending remotely, presentations will appear on your computer/laptop/mobile device screen and audio may be heard via the device or telephone. Please be aware that the WebEx meeting may be recorded. WebEx technical support is available at 1-866-229-3239.

Via Computer: Go to <https://energy.webex.com/ec>. If this event is listed, click "Join." If not, click the "Home" tab on the top left of your screen and enter Event Number **920 956 518**. When prompted, enter your name and email address. No password is needed.

The "Join Conference" menu offers a choice of audio connections:

1. To call into the meeting, select "I will call in" and follow the on-screen directions.
2. International attendees, select "Global call-in number."
3. To have WebEx call you, enter your phone number and click "Call Me." This step will not work if your number has an extension.
4. For Internet audio: If you have a broadband connection, a headset, or a computer microphone and speakers, you may use VoIP (Internet audio). Go to the audio menu and click "Use Computer Headset," then "Call Using Computer."

Via Telephone: (no visual presentation): Call 1-866-469-3239 (toll free in the U.S. and Canada) and when prompted, enter the meeting number above. International callers may select a number from <https://energy.webex.com/energy/globalcallin.php>.

Via Mobile Device: Download the application from www.webex.com/products/web-conferencing/mobile.html.

Muting: We greatly appreciate your cooperation in reducing background noise on the audio connection by muting your line when you are not speaking. Mute your line rather than placing your phone on hold. Using WebEx, right click on your name in the panelists or attendees list and select "Mute." If you are using a telephone connection, press "*6" once to mute and again to unmute.

Availability of Documents

The staff draft solicitation concept as well as other documents and presentations for this meeting will be available at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=19-ERDD-01>.
