Submission Date:	2/26/2020 4:50:27 PM
Docketed Date:	2/26/2020

Dr. Moore

Please accept the attached document into the SDAPCD records regarding the amendments request from CECL. Terramar and I, intervenors at the California Energy Commission, want to oppose the approval of the requested amendments from the Owners of the Amended Carlsbad Energy Center Project. We strongly request that you take our opposition into account when making your final decision. Please deny the CECL amendments. If you decide to continue their variance requests until they solve the issues of carbon emissions, please require offsets.

Thank you for your consideration,
Terramar
Kerry Siekmann
