## **More hydrogen stations please**

Please encourage the approval and building of more hydrogen fuel stations. Hydrogen fuel cell vehicles are wonderful but my son was frustrated the last time he drove from the Bay Area to Los Angeles because multiple stations were offline and the alternative station is a long drive in the wrong direction. He went to fill up in Pasadena after they received a delivery but there were already a dozen cars ahead of him. He ended up filling up in Anaheim before driving home to Oakland. San Ramon went down right as he started to fill. Improved reliability in keeping stations online would also help.

Thank you!

Pam and Leon Hall
