It's a good start, but efficiency needs to go up

Please improve on infrastructure closer to the Nevada border so one may be able to drive to vegas and back in a hydrogen fuel cell vehicle. Also the information on websites as to which station is up or down is not as accurate. Please invest money in efficiency and relax the California incentives for people who are interested in hydrogen fuel cell vehicles. Make it easier to get into a hydrogen fuel cell vehicle than a bev. Thank you
