Opposition to new energy plant

Hi,

I learned about the plans for a new plant in Redondo Beach that will affect all South Bay negatively in terms of air quality and noise. I certainly oppose it in the name of my family. In our age and abundant country, there are harmless alternative energy sources like solar and wind. I would totally support investments on clean energy. It might be more expensive, but what is more precious than our family's long term health and wellbeing?

Sincerely,

Nilgun Venetz
