We do a very high volume of Title 24 reports registrations, more than any other title 24 company in the state as far as I am aware. We were very happy to switch from Calcerts to Cheers a few years ago. Their customer service and user experience was 10x better experience we were getting at Calcerts. Please do not shut them down, we do not need a monopoly of using Calcerts only. None of our 600+ designer clients ever confused Calenergy with the CEC I don't even know why that is even up for debate. It is not any similar than Calcerts is. Please keep Calenergy open.
